I HAVE A BEEF WITH  
ASTROLOGY AND I WANT  
TO TALK ABOUT IT.

#### WHAT'S UP FOR 2021?

The Energy Almanac has it all laid out. 2020 was "cute", but what about 2021? Ask me. I dare you.

IG: @TheEnergyAlmanac FB @TheEnergyAlmanac

#### AUTHOR. ARTIST. COACH. PUBLISHER.

As the creator of The Energy Almanac, an annual publication with weekly global astrological guidance, I've learned quickly that astrology is a big subject that needs to be narrowed down. I love a good conversation about "what's next for the world" and can speak through my coaching experience about the value of applied astrology and energy psychology for both life and business. A little sweet, a little salty, I'm a cosmic chocolate covered pretzel.

#### SO REALLY, WHY DOES ASTROLOGY HAVE TO BE SO HARD? AND WHAT'S UP FOR 2021?

If those in the know could simplify the astro-speak more people could actively use this tried and true method for understanding life circumstances.

#### VIRGO. TAURUS. SAG.

Read: Uptight. Loves Mama Earth, good food, fine things and fun. When I realized my destiny was to write a guidebook about astrology for the masses everything started to click. Simplified astrology for everyone under the guise of The Energy Almanac is my life's work.

#### LET'S TALK:
